LAW DEPARTMENT MEMORANDUM

RICHMOND, VIRGINIA

RECEIVED

MAR 31 1977

ALEXANDER HOLTZMAN

TO: Distribution DATE: 30 March 1977

FROM: A. Palmer, Jr.

SUBJECT: USA PATENT COMMITTEE MEETING ON APRIL 7

Report on suggested procedure by Thomson - Osdene

Based on discussions with Dr. Seligman the agenda suggested for the Committee's next meeting will include:

1) A summary of our patent activities during 1976; and

2) Consideration of the technical status and patent prospects of the following subjects in the field of Modified Smoking Materials, as described generally in the attached summaries of work by Gus Keritsis:

PM 641--Basic LTF Technology
653--Extrusion of Smoking Materials
662--Reconstituted Tobacco Containing Heat Treated Materials
689--Crosslinking/Stiffening/Structure Stabilization
698--LTF with Heat Treated Materials
713--Nontobacco Smoking Materials Containing Chitosan/Chitin/Deproteinated Shells of Crustacea
742--Flavor Precursors Using Chitosan/Chitin/Deprotenated Shells of Crustacea
